Premier accommodations, unparalleled access

Distinctive, elegant apartments and hotels in the most desirable neighborhoods offer the upscale traveler all the benefits of *convenience, security, privacy* and *flexibility*. But, this is merely where Private Access Journeys begin.

A Private Access Journeys offers you and your clients a truly breakthrough combination for 21st century travel:

- Luxurious accommodations in both fine hotels and elegant private apartments.
- Client-centric planning and onsite support at a level of traditionally associated with concierge service and/or personal tour guide.

Private Access Journeys leverages Untours deep in-country experience with the European market and its 40-year heritage of selecting accommodations, and managing in-country experiences, since 1975.

Confidence and simplicity, hallmarks of partnership

Each Private Access Journeys is built on an effective collaboration with each Travel Consultant partner. As your clients' primary resource, we believe it is essential that you are engaged in their travel planning to ensure their confidence as well as yours. And, once you select us to work with your clients, we focus on handling each of the often numerous details of their individualized in-country experiences.

Remarkable, memorable journeys by design

Our in-country Experience Coordinators, led by our U.S.-based Director, collaborate with you and your clients to provide personal concierge-level planning services. We begin with their individual interests, tastes and desires—then we set to work. Our Experience Coordinators, expert at satisfying the needs of luxury travelers, can arrange these, and a myriad other memorable experiences, for your most important client seeking something truly different in Paris or Florence.
